1   Introduction

Arizona Tobacco Tax return data can be uploaded to Arizona Luxury Tax Online, Arizona's electronic filing system for Tobacco Tax, using Microsoft Excel spreadsheets. This document provides the formatting requirements for these spreadsheets to ensure the data correctly uploads into Arizona Luxury Tax Online.

The file upload process allows businesses to upload all transaction detail information from a spreadsheet. However, users may still be required to manually enter additional information for certain returns.

File Testing

The state strongly recommends that taxpayers test both their file formats and the file upload process before attempting to upload "live" returns. Prior to July 1, 2015, taxpayers can submit test files to the Luxury Tax Department at luxurytax@azdor.gov for testing. Starting July 1, taxpayers will have an option to upload test files via Arizona Luxury Tax Online to verify that all transaction detail records are successfully uploaded or to identify which records have errors.

File Format

Cigarette, OTP, and PACT returns can be uploaded to Arizona Luxury Tax Online by populating the provided Microsoft Excel templates with the appropriate data. The Excel spreadsheets must be formatted using the information provided in this document. Sample file layouts are available to illustrate correct file formatting and field values. You can find the sample file layouts on the website below:

<div align="center">

http://www.azdor.gov/TobaccoEFileProgram.aspx

</div>

It is imperative that taxpayers use the provided Excel templates. To ensure proper upload and processing of these forms, please:

- Use Excel file extensions (.xlsx or .xls from Excel 2003 or newer)
- Begin entering data records on row 2
- Do not rename individual sheets
- Do not delete or rename columns
- Do not change the column order

2   Cigarette File Layout

The Cigarette return is formatted using a Microsoft Excel workbook containing three sheets. The first sheet is named **Beginning Inventory** and contains figures for beginning cigarette inventory. The second sheet is named **Cigarette Invoices** and contains all transaction invoice data. The final sheet is named **Affixed Cigarettes** and contains all affixed cigarettes for sale. It is crucial that individual sheet names are not changed. Any changes to a sheet name will cause the return upload to fail.

Beginning Inventory Sheet Fields

The following table lists the specific details of the **Beginning Inventory** sheet, including the field types and descriptions.

The fields containing a ✔ in the Lookup Table column have additional file format value lookup tables. The contents of these lookup tables are listed immediately following this table.

5   File Reminders

Prior to uploading your Excel spreadsheet into Arizona Luxury Tax Online, be sure to save a copy of the original Excel file as a backup of your return. The uploaded files will not be exportable from within the Arizona Luxury Tax Online system.

If you receive a list of records with errors upon uploading the Excel spreadsheet, correct the item(s) in the spreadsheet and resubmit the file. If you continue to have errors or experience problems with uploading the file, contact the Luxury Tax Department at (602) 716-7808 or email at LuxuryTax@azdor.gov.
